

## **Write the email to the HR on Negotiating on the Package**

Dear Mr. / Ms. XXXXXXXX

Subject: Request for Salary Negotiation

I would like to take the opportunity to thank you and XXXXXXXX company for offering me the position of Data scientist role. It is going to be a great pleasure working with the team.

I have also received the details of my salary that, after taxes, amounts to a total package of 5 LPA. However, I am of the understanding that someone of my qualification level and stature in any other company would be given a minimum amount of 6LPA.

I would be highly obliged if you could review my request. I am also willing to put in any extra effort that may be required on my part. If not an increment in salary, I would be interested to opt for other special privileges that the company might have to offer.

Thanking you,  
Yours faithfully,

Beesetti Saikumar.
